### **Make America badass again!**

Or... kill 'em and grill 'em!

Take your pick, folks, but only if you reside in "Pure Michigan." The home of the Spartans, Mackinac Island, the fat guy from Grand Rapids, and the very easy to hate hockey's answer to Beelzebub, the Detroit Red Wings.

Being touted for a possible position as federal Senators in 2018 are the twin duos of Kid Rock or Ted Nugent.

Here's what political director Rand Ward of Michigan has said of the Motor City Madman. "Ted Nugent is not just a celebrity, he understands in depth, policy issues at a level most elected officials or even so-called experts do not." So there! And of you don't agree with Mr. Spirit of the Wild, he will stick a bow and arrow up your dumb ass!

And the "God, guns, Trump" rocker Kid Rock, is also being touted as the one to Make Michigan Great Again as Senator.

Robert James Ritchie, as his mama knows him, is thinking about a possible run in 2018, too. And the slogan? Kid Rock — why not? I say, well, why not?

Then I thought who in Illinois could we get to kick the very boring Dick Durbin to the curb? Maybe Tommy Lee or Uncle Kracker?

After a little research, however, I see that Tommy Lee was born in Greece. So while he can run, we should allow him to be free just to make Greece Great again. Therefore there will be no appearances by Pamela Anderson in the next election cycle.

And much to my dismay I see that the Kracker was also born in Michigan and actually works for the Kid. So fuhgeddaboutit.

So who then in Illinois is a possible for a senatorial seat who is famous?

Well, there's Park Ridge's own — Hillary. She doesn't live there anymore, but why should that little obstacle stand in her way? But the true question should be....can she sing?

Vita é bella.
